1.

Curso: Degree in Accounting - Branch: Taxation

Área/ Subárea: Law/Common Law

Semestre: 4th

Carga horária: 4,5h

ECTS: 4

2.

European Union Law aims to provide students with general knowledge of the legal aspects of the European Union, both in the institutional plan as well as in litigation. After basic knowledge of the structure, efforts will be directed at revealing the dynamics of the European Union law, considering the economic integration, in particular the four freedoms.

3.

- 1 – Genesis of the European communities, the historical context in which they arose
- 2 – Treaties establishing the ECSC, EEC and Euratom;
- 3 – Institutions and bodies of the European Union;
- 4 – The sources of European Union law;
- 5 – Fundamental principles of European Union Law;
- 6 - The litigation – Legal Parts, foundations and specific actions;
- 7 – The journey from the Customs Union to the Economic and Monetary Union;
- 8 – Positive and negative actions and policies towards economic integration;
- 9 – Free movement of goods;
- 10 – Free movement of people and workers;
- 11 – Freedom to provide services and establishment;
- 12 – Free movement of capital;
- 13 - The European Union competition law.
