Main Bibliography

1.

Field of Studies: Economy

Area: Finance

Semester: 6th

Hours per week: 3,0

ECTS: 4

2.

The student must understand the theory of international finance and its real world applications from a business point of view. Foreign exchange markets and international capital markets (banking, debt and equity) are necessary to carry out a sound and effective management of an international corporation from a financial point of view.

3.
