

Ready to contribute to the future of the automotive industry?

Technology is driving today's fast-paced world — and we create new innovations that transform industries and society for the better. Together let's start powering good to make the world a better place.

Hitachi Group's Brake Business Unit is engaged in the development, manufacture, sales and services of automotive components, transportation related components, industrial machines and systems. We focus on developing safer, cleaner, smarter solutions that will support mega-trends impacting the automotive industry, such as connectivity, electrification and autonomous driving.

About the business unit

Hitachi Group's Brake Business Unit is one of the world's largest manufacturers of automotive braking solutions. Our products – disk brakes, drum brakes, electro-mechanical parking brakes and rotors – are dedicated to passenger cars, light commercial and two-wheeler vehicles through original equipment manufacturers and aftermarket distribution channels. We have a global footprint with operations in Europe, Asia, South Africa, North and South America.

The spirit of Hitachi based on the values of Harmony, Sincerity and Pioneering Spirit resonates through the way we think and operate. We collectively strive to deliver solutions that contribute globally to a sustainable society and improve people's quality of life. We aim to provide an enjoyable work environment where our people can grow personally and professionally.
